## HABILIDADES

- Teamwork
- Independent learning (online degree)
- Adaptability to virtual environments
- Management and organization
- Working under pressure
- Problem solving
- Autonomy

## INFORMACIÓN

- 🚗 (B1)

## MY PROFILE

Computer Engineering professional with experience in process automation and data processing using Python. I recently applied my skills to developing efficient solutions for data management and analysis, working with technologies such as Docker, Spring Boot, and SQL Server. I have participated in projects focused on workflow optimization, implementing scripts for task automation, and improving efficiency in information processing. I also have solid knowledge of programming languages such as Python, Java, C, and JavaScript, and a quick ability to adapt to new tools and methodologies.

## ACADEMIC EXPERIENCE

### (2019 – 2025) / BACHELOR'S DEGREE IN COMPUTER ENGINEERING

UNIVERSITAT OBERTA DE CATALUNYA (UOC)

Development and Maintenance of Software, Web, and Mobile Applications.

### (2009 – 2011) / F.P. II EN MÉCANICA NAVAL

I.F.P.M.P. DE SAN ANDRÉS

Supervision and Control of Naval Machinery

Development and Maintenance of Software, Web, and Mobile Applications

## EXPERIENCE

### PROGRAMMER – ALFRAN

(May 2025 – June 2025)

Automation with Python, JS, and CF7 in WordPress.

### ADMINISTRATIVE – M<sup>º</sup> DEL ROSARIO

(January 2018 – July 2023)

Data management with Excel, use of SQL

### MECHANIC – UNELCO

(April 2011 – June 2011)
